VELVET KEYS - Your Colour Keys

Velvet Keys

The Velvet keys combine **colour, design and quality in a unique product**. Customize the Velvet keys with texts and images of your choice. You can, for example, promote your own brand and shop contact details.

The Velvet keys feature a distinctive texture and a shimmering glare, adding a touch of brightness and flair to your customers' keys. You can choose from **five different colours**: green, orange, lilac, blue, and red. The Velvet keys are all available in the versatile 'L' head shape, providing a wide area for your texts and images.

Clés Velvet

Choisissez les clés Velvet pour offrir **couleur, design et qualité en un seul produit**. Personnalisez les clés Velvet avec des textes et des images de votre choix, et faire, par exemple, de la promotion pour votre activité ou votre magasin.

Les clés Velvet sont proposées dans une texture unique, aux reflets moirés donnant du brillant et de la vivacité aux clés de vos clients. **Cinq tonalités** parmi lesquelles choisir : vert, orange, lilas, bleu-ciel et rouge. Toutes les clés Velvet sont proposées avec la **tête « L »** versatile et élégante où il y a de la place pour mettre textes et images.

Chiavi Velvet

Scegli le chiavi Velvet per offrire **colore, design e qualità in un unico prodotto**. Personalizza le chiavi Velvet con testi e immagini a tua scelta, promuovendo, ad esempio, la tua attività e il tuo negozio.

Le chiavi Velvet propongono una texture unica, dai riflessi cangianti, per donare brillantezza e vivacità alle chiavi dei tuoi clienti. **Cinque le tonalità** fra cui scegliere: verde, arancione, lilla, azzurro e rosso. Tutte le chiavi Velvet sono disponibili nella versatile ed elegante **testa 'L'**, dandoti ampio spazio per l'inserimento di testi e immagini.

Llaves Velvet

Elige las llaves Velvet para ofrecer **color, diseño y calidad en un único producto**. Personaliza las llaves Velvet con textos e imágenes de tu elección, para promover, por ejemplo, la actividad de tu tienda.

Las llaves Velvet presentan una textura única, con reflejos cambiantes, para regalar brillo y vivacidad a las llaves de tus clientes. **Cinco tonalidades** para elegir: verde, naranja, lila, celeste y rojo. Todas las llaves Velvet están disponibles con la **cabeza en 'L'**, elegante y versátil: un amplio espacio donde insertar textos e imágenes.

Velvet Schlüssel

Entscheiden Sie sich für die Velvet Schlüssel, um **Farbe, Design und Qualität in einem Produkt anzubieten**. Gestalten Sie die Velvet Schlüssel mit Texten und Bildern Ihrer Wahl, um z.B. Werbung für Ihr Gewerbe und Ihr Geschäft zu machen.

Die Velvet Schlüssel haben eine einzigartige Beschaffenheit mit schillernden Reflexen, um den Schlüsseln Ihrer Kunden Glanz und Farbe zu schenken. **Fünf Farbtöne** sind verfügbar: grün, orange, lila, blau und rot.

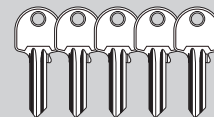

Alle Velvet Schlüssel sind mit der vielseitigen und eleganten **'L' Schlüsselreide** erhältlich, die viel Platz für Text und Bilder bietet.

Chaves Velvet

Escolha as chaves Velvet para oferecer **cor, design e qualidade num único produto**. Personalize as chaves Velvet com textos e imagens à sua escolha, promovendo, por exemplo, a sua atividade e a sua loja.

As chaves Velvet propõem uma textura única, com reflexos iridescentes, para doar brilho e vivacidade às chaves dos seus clientes. **As tonalidades entre as quais escolher são cinco**: verde, cor de laranja, lilás, azul claro e vermelho. Todas as chaves Velvet estão disponíveis com a **cabeça 'L'** versátil e elegante, dando amplo espaço para inserir textos e imagens.

Air4 Receiver: the remote door and gate release

Air4 Receiver

Air4 Receiver is the remote release for installed electromechanical doors and gates.

With Air4 Receiver there's no need to search for a key or go to the switch to open the gate. Just press the button on your Air4 remote and the gate will unlock. The solution consists of an easy-to-install receiver and an Air4 remote, for opening 12V and 15V electronic locks, such as pedestrian gates and building entrance doors. The compact size of the receiver fits most switch housing boxes, whilst the Silca Air4 remote supplied is ready to work immediately without further programming procedures.

The solution is compatible with Air4 Home.

Air4 Receiver

Air4 Receiver ermöglicht das automatische Öffnen von bereits vorhandenen elektromagnetischen Toren und Türen.

Mit Air4 Receiver muss man nicht mehr nach den Schlüsseln suchen oder bis zum Schalter gehen, um das Tor zu öffnen. Man drückt einfach eine Taste auf Air4. Diese Lösung umfasst einen einfach zu installierenden Empfänger und eine Funkfernbedienung Air4 für das Öffnen von Schlössern, die mit einer Spannung von 12V und 15V gespeist werden, wie Fußgängertore und Eingangstüren in Wohnanlagen. Durch seine kompakte Größe kann der Empfänger in den meisten Steckdosen untergebracht werden. Die im Lieferumfang enthaltene Air4 ist bereits programmiert und funktionsbereit. Air4 Receiver ist mit Air4 Home kompatibel.

Air4 Receiver

Air4 Receiver permite la apertura automatizada y desde lejos de portones y cancelas electromecánicas instalados.

Ya no hay que hacerse un lío buscando las llaves o ir al interruptor para abrir la cancela, con Air4 Receiver todo esto ya no sirve. Solamente se ha de pulsar un botón en el radiomando Air4. La solución incluye un receptor fácil de instalar y un mando Air4 para abrir cerraduras eléctricas alimentadas a 12V y 15V, tales como cancelas peatonales y puertas de entrada de bloques de pisos. Con sus dimensiones compactas, el receptor entra en la mayoría de las tomas, mientras que el mando Silca de la dotación está programado y listo para funcionar.

Air4 Receiver es compatible con Air4 Home.

Air4 Receiver

Air4 Receiver consente l'apertura automatizzata da remoto di portoni e cancelli elettromeccanici già installati.

Con Air4 Receiver non sarà più necessario affannarsi a cercare le chiavi o andare all'interruttore per aprire il cancello. Sarà sufficiente premere un pulsante sul radiocomando Air4. La soluzione comprende un ricevitore di facile installazione e un radiocomando Air4, per l'apertura di serrature elettriche a 12V e 15V, come cancelli pedonali e ingressi condominiali. Le dimensioni compatte del ricevitore lo rendono facilmente adattabile alla maggior parte delle prese, mentre il radiocomando in dotazione è programmato e pronto all'uso. La soluzione è compatibile con Air4 Home.

Air4 Receiver

Air4 Receiver permet l'ouverture automatisée et à distance de portails et portillons électromécaniques déjà installés.

Avec Air4 Receiver, plus besoin de se stresser pour chercher ses clés ou aller jusqu'à l'interrupteur pour ouvrir le portail ; il suffira d'appuyer sur un bouton de la télécommande Air4. La solution comprend un récepteur facile à placer et une télécommande Air4 pour l'ouverture de fermetures électriques alimentées à 12 et 15V, comme les portillons piétons et les portes d'entrées de copropriétés. Le récepteur Air4 Receiver compact peut être inséré dans la plupart des prises, tandis que la télécommande Silca Air4 fournie est programmée et prête à l'usage.

Air4 Receiver est compatible avec Air4 Home.

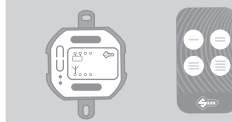

Air4 Receiver

A solução Air4 Receiver permite a abertura automatizada e de longe de portas e portões electromecânicos já instalados.

Com Air4 Receiver já não será necessário preocupar-se de buscar as chaves ou chegar ao interruptor para abrir o portão. Será suficiente premir um botão no rádio controlo Air4. A solução inclui um receptor fácil de instalar e um rádio controlo Air4 para abrir fechaduras eléctricas alimentadas a 12V e 15V, como portões pedonais e portas de entrada de condomínios. As dimensões compactas do receptor permitem seu alojamento na maioria das tomadas, enquanto o rádio controlo Silca Air4 entregue anexo está programado e pronto para a utilização.

Air4 Receiver é compatível com Air4 Home.

> More info on all Silca websites

Air4 Universal Receiver: upgrades automatic gate and garage door systems

Air4 Universal Receiver

Air4 Universal Receiver is the solution for remotely opening installed barriers, gates and garage doors when the control unit is broken or blocked.

The receiver enables the gate or garage door to be opened with the supplied Air4 remote, by-passing the original system via the receiver. Air4 Universal Receiver is the ideal solution also when obsolete technology has been used that doesn't permit copies of remotes to be made (for example Quartz remotes). Air4 Universal Receiver is compatible with most original systems and with Silca Air4 Home, enabling gates and garage doors to be opened with a smartphone.

Air4 Universal Receiver

Air4 Universal Receiver è la soluzione perfetta per aprire a distanza dispositivi automatizzati già installati, quali barriere, cancelli e basculanti, nei casi in cui il ricevitore originale sia bloccato o rotto.

Il ricevitore ne consente infatti l'apertura da remoto utilizzando il radiocomando Air4 fornito, bypassando il sistema originale. Air4 Universal Receiver è la soluzione ideale anche quando la tecnologia obsoleta del sistema originale non consente di effettuare nuove copie dei radiocomandi (ad es. radiocomandi quarzati). Air4 Universal Receiver è compatibile con la maggior parte dei sistemi originali e con Air4 Home, consentendo di aprire cancelli e basculanti direttamente dal proprio smartphone.

Air4 Universal Receiver

Air4 Universal Receiver ist die optimale Lösung, um aus der Ferne bereits installierte automatische Öffnungsanlagen, wie Schranken, Tore und Kipptore zu öffnen, wenn der Originalempfänger blockiert oder kaputt ist. Der Empfänger ermöglicht durch die Nutzung der mitgelieferten Funkfernbedienung Air4 eine Öffnung aus der Entfernung, wobei das Originalsystem umgangen wird. Air4 Universal Receiver ist die optimale Lösung auch wenn die veraltete Technologie des Originalsystems die Durchführung von Kopien der Funkfernbedienungen nicht zulässt (z.B. Quarz-Funkfernbedienungen). Air4 Universal Receiver ist mit den meisten Originalsystemen und mit Air4 Home kompatibel, für das Öffnen von Toren oder Kippfenstern direkt vom Smartphone aus.

Air4 Universal Receiver

Air4 Universal Receiver est la solution parfaite pour ouvrir à distance des dispositifs automatisés déjà installés comme des barrières, portillons et portails basculants dans les cas de figure où le récepteur original s'est bloqué ou s'est cassé.

Le récepteur permet de les ouvrir à distance avec la télécommande Air4 fournie en by-passant le système original. Le récepteur universel Silca est la solution idéale même quand la technologie obsolète du système original ne permet pas de faire de nouvelles copies des télécommandes (par ex. télécommandes quartz). Air4 Universal Receiver est compatible avec la plupart des systèmes originaux et avec Air4 Home pour ouvrir portillons et portails basculants sur votre smartphone.

Air4 Universal Receiver

Air4 Universal Receiver es la solución perfecta para abrir a distancia dispositivos automatizados anteriormente instalados, tales como barreras, cancelas y puertas basculantes, cuando el receptor original está bloqueado o se ha roto.

De hecho, el receptor permite la apertura a distancia utilizando el mando Air4 de la dotación, sin necesitar el sistema original. El receptor universal de Silca es la solución ideal también cuando la tecnología antigua del sistema original no permite efectuar copias nuevas de los mandos (por ej. mandos al cuarzo). Air4 Universal Receiver es compatible con la mayoría de los sistemas originales y avec Air4 Home para abrir cancelas y puertas basculantes directamente con el propio smartphone.

Air4 Universal Receiver

Air4 Universal Receiver é a solução perfeita para abrir à distância dispositivos automatizados já instalados como barreiras, portas e portões basculantes, nos casos em que o receptor original esteja bloqueado ou avariado.

De facto, o receptor permite a abertura de remoto utilizando o rádio controlo Air4 anexo, contornando o sistema original. O receptor universal de Silca é a solução ideal também quando a tecnologia desatualizada do sistema original não permitir efectuar novas cópias dos rádio controlos (por ex. rádio controlos quartzados). Air4 Universal Receiver é compatível com a maioria dos sistemas originais e com Air4 Home para abrir portas e portões basculantes directamente com o próprio smartphone.

New Software Update GM® 2018 ADS2279 - Code D753492AD

United Kingdom Advanced Diagnostics is pleased to announce the update of the GM® 2018 ADS2279 programming software for both bladed and proximity keys for several Opel®-Vauxhall® and Holden® models. This software features the option to add one additional key / remote to an existing key. No working key, additional cable or software are required.

Italy Advanced Diagnostics ha sviluppato l'aggiornamento software ADS2279 GM® 2018 per la programmazione di chiavi a canna metallica e chiavi di prossimità per veicoli Opel®-Vauxhall® e Holden®. Il software consente inoltre di aggiungere nuove chiavi o radiocomandi agli esistenti. Non è richiesto l'utilizzo di una chiave funzionante, né di ulteriori cavi o software.

Germany Advanced Diagnostics hat ein neues Update für die Software ADS2279 GM® 2018 entwickelt, die der Programmierung von Metall- und Keyless-Go-Schlüsseln für weltweit verbreitete Opel®-Vauxhall® und Holden® Fahrzeugmodelle gewidmet ist. Die Software ermöglicht neue „Schlüssel hinzufügen“, wenn Sie einen bestehenden Schlüssel bzw. eine Fernbedienung einem bestehenden Schlüssel hinzufügen möchten. Sie brauchen keinen funktionierenden Schlüssel, kein Kabel und keine Software.

France Advanced Diagnostics a développé une nouvelle mise à jour du logiciel ADS2279 GM® 2018 dédié à la programmation de clés en métal et de proximité pour véhicules Opel®-Vauxhall® et Holden® diffusés dans le monde entier. Le logiciel permet d'ajouter de nouvelles clés ou télécommandes aux clés existantes. Il ne faut avoir ni clé en ordre de marche, ni câbles ou logiciels supplémentaires.

Spain Advanced Diagnostics ha desarrollado una nueva actualización del software ADS2279 GM® 2018 para la programación de llaves de proximidad y no proximidad para modelos de Opel®-Vauxhall® y Holden® comercializados en todo el mundo. El software permite añadir llaves o mandos a las llaves ya existentes. No se requiere una llave en funcionamiento ni otros cables o software.

Portugal A Advanced Diagnostics desenvolveu uma nova atualização do software ADS2279 GM® 2018 dedicada à programação de chaves de metal e de proximidade para veículos Opel®-Vauxhall® e Holden® difundidos em todo o mundo. O software há também uma opção que permite adicionar novas chaves ou rádio controlos aos existentes. Não é necessário o uso de uma chave que funciona nem de cabos ou software adicionais.

New Software Update Hyundai®-Kia® 2018 ADS2280 - Code D753493AD

United Kingdom: Advanced Diagnostics is pleased to announce the update of the ADS2280 software for reading pincodes and programming bladed and proximity keys for numerous Hyundai® and Kia® vehicles. All keys will be erased before programming. The transponder and the remote will be programmed at the same time when using a proximity key, while for bladed keys they are programmed separately. A working key is not required.

Italy: Advanced Diagnostics ha sviluppato un nuovo aggiornamento per il software ADS2280 per la lettura del codice pin e la programmazione di chiavi con canna metallica e di prossimità di numerosi modelli Hyundai® e Kia®. Tutte le chiavi registrate in centralina saranno cancellate prima della programmazione. Transponder e radiocomando sono programmati contemporaneamente nel caso delle chiavi di prossimità, mentre sono programmati separatamente nelle chiavi con canna metallica. Non è richiesta una chiave funzionante.

Germany: Advanced Diagnostics hat das neue Software-Update ADS2280 entwickelt, das für viele Hyundai® und Kia® Modelle PIN-Codes lesen kann und Metall- und Keyless-Go-Schlüssel programmiert. Alle Schlüssel werden vor dem Programmieren gelöscht. Transponder und Fernbedienung von den Keyless-Go-Schlüsseln können zur selben Zeit programmiert werden, während sie separat in den Metallschlüsseln programmiert werden. Es ist kein funktionierender Schlüssel erforderlich, um die Programmierung vorzunehmen.

France: Advanced Diagnostics a développé une nouvelle mise à jour du logiciel ADS2280 dédié à la lecture des codes PIN et à la programmation des clés en métal et de proximité de nombreux modèles Hyundai® et Kia®. Toutes les clés seront effacées avant la programmation. Le transpondeur et la télécommande seront programmés au même moment dans le cas des clés de proximité, tandis qu'ils sont programmés séparément dans les clés en métal. Une clé en ordre de marche n'est pas demandée pour faire la programmation.

Spain: Advanced Diagnostics ha desarrollado la nueva actualización del software ADS2280 para la lectura del código pin y para la programación de llaves de proximidad y no de numerosos modelos Hyundai® y Kia®. Todas las llaves se borrarán antes de ser programadas. El transponder y el mando se programarán al mismo tiempo en el caso de las llaves de proximidad, mientras que se programarán por separado en las llaves con espadín. No se requiere una llave funcional para llevar a cabo la programación.

Portugal: A Advanced Diagnostics desenvolveu uma nova atualização do software ADS2280 dedicada à leitura dos códigos PIN e à programação de chaves de metal e de proximidade de numerosos modelos Hyundai® e Kia®. Todas as chaves serão apagadas antes da programação. O transponder e o rádio controle serão programados ao mesmo tempo no caso das chaves de proximidade, enquanto serão programados separadamente nas chaves de metal. Não é necessária uma chave que funciona para efectuar a programação.

OFFER DETAILS

Cable	ADC2000
