

Proximity, Slot and Remote Car Keys Catalogue

March 2019

EN - The range of Silca proximity, slot and remote car keys is the perfect solution for replacing damaged or lost keys, or to have a duplicate in case of emergency.

All the keys have a similar design as the original and are supplied ready-to-programme with the PCB, transponder and emergency or flip blade included. The keys can be programmed with Smart Pro and other programming devices and are packed individually in a plastic clamshell for easy identification and hook display.

IT - La gamma di chiavi di prossimità, slot e radiocomandi Silca è la soluzione perfetta per sostituire chiavi danneggiate o perse, o per avere un duplicato da utilizzare in caso di emergenza.

Tutte le chiavi hanno lo stesso design dell'originale e sono provviste di PCB, transponder e chiave di emergenza o flip. Le chiavi possono essere programmate con Smart Pro e altri dispositivi di programmazione e sono confezionate singolarmente in un pratico blister di plastica per una rapida identificazione e un'ottimale esposizione su ganci da parete.

DE - Die Silca Keyless-Go, Slot- und Fernbedienung-Schlüssel sind die perfekte Lösung, um beschädigte oder verloren gegangene Schlüssel zu ersetzen oder einfach einen Zweitschlüssel zu haben, der im Notfall verwendet werden kann. Die Schlüssel haben das gleiche Design des Originalschlüssels und sind programmierbar mit PCB, Transponder und Not- oder Klappschlüssel. Sie können mit Smart Pro und anderen Geräten programmiert werden und sind für eine schnelle Identifizierung und eine optimale Ausstellung an Wandhaken einzeln in einem Kunststoffblister verpackt.

FR - La gamme de clés de proximité, slot et télécommande Silca est la solution parfaite pour remplacer les clés abîmées ou perdues, ou pour avoir un duplicata à utiliser en cas d'urgence.

Les clés ont le même design que l'originale et sont prêtes à être programmées car elles sont dotées de PCB, transpondeur et clé de secours ou flip. Les clés peuvent être programmées sur Smart Pro et autres dispositifs de programmation et sont emballées individuellement dans un pratique blister en plastique ce qui permet d'identifier rapidement la référence et de l'exposer sur une cloison avec des crochets.

ES - La gama de llaves de proximidad, slot y mandos Silca es la solución perfecta para sustituir llaves estropeadas, extraviadas o simplemente para obtener un duplicado requerido por el cliente.

Las llaves presentan el mismo diseño que l'originale y estan listas para ser programadas: la PCB, el transponder y el espadín de emergencia o la llave plegable estan incluidos. Las llaves se pueden programar con Smart Pro y otros dispositivos de programación y se embalan individualmente en un blister de plástico para lograr una identificación rápida de la referencia y para una exposición óptima en ganchos murales.

PT - A gama de chaves de proximidade, slot e rádio controlos Silca é a solução perfeita para substituir chaves danificadas ou perdidas, ou para ter um duplicado a utilizar em caso de emergência. As chaves têm o mesmo design da original e estão prontas para ser programadas. De facto, estão provida de PCB, transponder e chave de emergência ou chave flip. As chaves podem ser programadas com o Smart Pro e outros dispositivos de programação e são embaladas individualmente em blister de plástico prático para uma identificação rápida da referência e para a melhor exposição em ganchos de parede.
