## Silca Remote Car Key for Opel®

### **Remote Car Key for Opel®**

Silca is pleased to introduce the new reference HU100AR02 for duplicating Opel® remote car keys.

The key has a similar design as the original and is supplied ready-to-programme with the PCB, transponder and flip blade included. It features two function buttons for locking and unlocking the doors and can be used on the vehicle models listed below.

### **Chiave Radiocomando per Opel®**

Silca presenta la nuova referencia HU100AR02 per la duplicazione di chiavi radiocomando per Opel®.

La chiave ha lo stesso design dell'originale ed è pronta per essere programmata: è infatti dotata di PCB, transponder e canna flip. La chiave ha due pulsanti per l'apertura e chiusura centralizzata delle portiere, e può essere utilizzata con i modelli veicolo indicati nella tabella qui sotto.

### **Fernbedienungsschlüssel für Opel®**

Silca präsentiert die neue Referenz HU100AR02 für das Kopieren von Fernbedienungsschlüsseln für Opel®.

Der Schlüssel hat das gleiche Design des Originalschlüssels und ist mit PCB, Transponder und klappbarem Schaft programmierbereit. Der Schlüssel hat zwei Tasten für die Zentralöffnung/-verriegelung der Türen und kann mit den in der unten stehenden Tabelle angeführten Fahrzeugmodellen verwendet werden.

### **Clé Télécommande pour Opel®**

Silca présente le nouvel article HU100AR02 pour reproduire des clés télécommande pour Opel®.

La clé a le même design que la clé originale et est fournie prête à être programmée avec le PCB, un transpondeur et un insert rabattable. La clé a deux boutons pour le déverrouillage/verrouillage centralisé des portières et peut être utilisée sur les modèles de véhicules indiqués dans le tableau ci-dessous.

### **Llave Mando para Opel®**

Silca presenta la nueva referencia HU100AR02 para duplicar llaves mando para Opel®.

La llave presenta el mismo diseño que la llave original y está lista para ser programada. De hecho, está equipada con PCB, transponder y cuerpo flip. La llave tiene dos botones para la apertura y el cierre centralizados de las puertas, y se puede usar con los modelos de vehículos indicados en la siguiente tabla.

### **Chave Rádio Controlo para Opel®**

A Silca apresenta a nova referência HU100AR02 para a duplicação de chaves rádio controlo para Opel®.

A chave tem o mesmo design da chave original e, provida de PCB, transponder e cana flip, está pronta para ser programada. A chave tem dois botões para a abertura e o fecho centralizado das portas, e pode ser utilizada com os modelos de veículo indicados na tabela a seguir.

CY24P21

## Silca Proximity Key for Jeep®

### Proximity Key for Jeep®

Silca is pleased to introduce the new reference CY24P21 for duplicating Jeep® proximity keys.

The key has a similar design as the key and is supplied ready-to-programme with the PCB, transponder and emergency blade included. It has three function buttons (lock, unlock, red panic button) and can be programmed with Advanced Diagnostics devices.

### Chiave di Prossimità per Jeep®

Silca presenta la nuova referencia CY24P21 per la duplicazione di chiavi di prossimità Jeep®.

La chiave ha lo stesso design dell'originale ed è pronta per essere programmata, essendo provvista di PCB, transponder e chiave di emergenza. È dotata di tre pulsanti (apertura/chiusura centralizzata delle portiere, antipánico) e può essere programmata con i dispositivi AD.

### Keyless-Go-Schlüssel für Jeep®

Silca präsentiert die neue Referenz CY24P21 zum Kopieren von Keyless-Go-Schlüsseln von Jeep®.

Der Schlüssel hat das gleiche Design des Originalschlüssels und ist programmierbar mit PCB, Transponder und Notschlüssel. Der Schlüssel hat drei Tasten (Zentralöffnung/-verriegelung der Türen, Panikknopf) und kann mit Advanced Diagnostics-Geräten programmiert werden.

### Clé de Proximité pour Jeep®

Silca présente le nouvel article CY24P21 pour reproduire des clés de proximité pour Jeep®.

La clé a le même design que la clé originale et est prête à être programmée car elle est dotée de PCB, transpondeur et clé de secours. Elle a trois boutons (déverrouillage/verrouillage centralisé des portières, anti panique) et peut être programmée sur les dispositifs Advanced Diagnostics.

### Llave de Proximidad para Jeep®

Silca presenta la nueva referencia CY24P21 para la duplicación de llaves de proximidad para Jeep®.

La llave presenta el mismo diseño que la llave original y está lista para ser programada. El transponder va integrado en la placa, además en la llave va incluido el espadín de emergencia. La llave tiene tres botones (apertura/cierre centralizados de las puertas, antipánico), y se puede programar con cualquier equipo de diagnosis.

### Chave de Proximidade para Jeep®

A Silca apresenta a nova referência CY24P21 para a duplicação de chaves de proximidade Jeep®.

A chave tem o mesmo design da chave original e está pronta para ser programada. De facto, está provida de PCB, transponder e chave de emergência. A chave tem três botões (abertura/fecho centralizado das portas, antipânico), e pode ser programada com os dispositivos Advanced Diagnostics.

## Silca Remote Car Keys for Ford®

### **Remote Car Keys for Ford®**

Silca is pleased to introduce the two new references FO21R10 and HU101R10 for duplicating Ford® remote car keys.

The keys have a similar design as the original, are supplied ready-to-programme with the PCB, transponder and flip blade included, and feature three function buttons (lock, unlock and boot release).

The two references cover different types of immobiliser systems and feature different key profiles.

### **Chiave Radiocomando per Ford®**

Silca presenta le due nuove referenze FO21R10 e HU101R10 per la duplicazione di chiavi radiocomando per Ford®.

Le chiavi hanno lo stesso design dell'originale, sono pronte per essere programmate essendo provviste di PCB, transponder e canna flip, e sono dotate di tre pulsanti (apertura/chiusura centralizzata delle portiere e apertura del bagagliaio). Le due referenze disponibili coprono modelli auto dotati di sistemi immobilizer diversi e hanno profili differenti.

### **Fernbedienungsschlüssel für Ford®**

Silca präsentiert die zwei neue Referenzen FO21R10 und HU101R10 für das Kopieren von Fernbedienungsschlüsseln für Ford®.

Die Schlüssel haben das gleiche Design der Originalschlüssel, sind programmierbar mit PCB, Transponder und einen klappbaren Schaft, und verfügen über drei Tasten (Zentralverriegelung/-öffnung der Türen und Kofferraumöffnung). Die zwei Referenzen decken Fahrzeugmodelle mit verschiedenen Wegfahrsperren ab und haben unterschiedliche Profile.

### **Clés Télécommande pour Ford®**

Silca présente les deux nouveaux articles FO21R10 et HU101R10 pour reproduire des clés télécommande pour Ford®.

Les clés ont le même design que les originales, sont fournies prêtes à être programmées avec le PCB, un transpondeur et un insert rabattable, et sont dotées de trois boutons (déverrouillage/verrouillage centralisé des portières, ouverture du coffre). Les deux articles couvrent des modèles auto dotés de système antidémarrage différents et ont des profils différents.

### **Llaves Mando para Ford®**

Silca presenta los dos nuevas referencias FO21R10 y HU101R10 para duplicar llaves mando para Ford®.

Las llaves presentan el mismo diseño que las llaves originales, están listas para ser programadas con PCB, transponder y cuerpo flip, y tienen tres botones (apertura/cierre centralizado de las puertas y apertura del maletero).

Las dos referencias para abarcan modelos de vehículos con sistemas immobilizer diferentes y también tienen perfiles diferentes.

### **Chaves Rádio Controlo para Ford®**

A Silca apresenta as duas novas referências FO21R10 e HU101R10 para a duplicação de chaves rádio controlo para Ford®.

As chaves têm o mesmo design das chaves originais, estão prontas para ser programadas com PCB, transponder e cana flip, e estão providos de três botões (abertura/fecho centralizado das portas e abertura da bagageira).

As duas referências abrangem modelos de carro providos de sistemas de imobilização diferentes e também têm perfis diferentes.

## New Key Programming Software VAG® 2019 ADS2292 - Code D753939AD

for MQB  
Platform

**UK** Advanced Diagnostics is pleased to announce the release of the ADS2292 key programming software for VAG®, supporting the popular MQB platform. The ADS2292 software programs bladed keys for numerous Audi®, Seat®, Škoda® and Volkswagen® models. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time. A working key and the Smart Aerial are required.

**IT** Advanced Diagnostics ha sviluppato il nuovo software ADS2292 per la programmazione di chiavi per i veicoli VAG® della popolarissima piattaforma MQB. Questo software consente di programmare chiavi con canna metallica per numerosi modelli Audi®, Seat®, Škoda® e Volkswagen®. Il software bypassa la richiesta di codice pin durante la procedura e programma contemporaneamente radiocomando e transponder. È richiesto l'utilizzo di Smart Aerial e di una chiave originale funzionante.

**DE** Advanced Diagnostics hat die neue Software ADS2292 entwickelt, die der Programmierung von Schlüsseln für die VAG® Fahrzeugmodellen von der populären MQB Plattform gewidmet ist. Die Software programmiert die Metallschlüssel für viele Audi®, Seat®, Škoda® und Volkswagen® Modelle. Die Software umgeht die Abfrage des Pin-Codes während des Verfahrens und programmiert die Funkfernbedienung und den Transponder gleichzeitig. Der Smart Aerial und ein funktionierender Schlüssel sind erforderlich.

**FR** Advanced Diagnostics a développé le nouveau logiciel ADS2292 dédié à la programmation des clés utilisées sur de nombreux modèles VAG® de la populaire plateforme MQB. Ce logiciel programme les clés en métal pour nombreux modèles Audi®, Seat®, Škoda® et Volkswagen®. Le logiciel contourne la demande de code pin pendant la procédure et programme simultanément télécommande et transpondeur. Smart Aerial et une clé en ordre de marche sont demandés pour faire la programmation.

**ES** AD ha desarrollado el nuevo software ADS2292 para la programación de llaves en varios modelos VAG® de la plataforma popular MQB. Este software programa llaves sin proximidad para varios modelos de Audi®, Seat®, Škoda® y Volkswagen®, realizando el bypass del acceso de seguridad durante el procedimiento y programando al mismo tiempo el mando a distancia y el transponder. Se requiere de una llave arrancando y el Smart Aerial.

**PT** A Advanced Diagnostics desenvolveu o novo software ADS2292 dedicado à programação de chaves para VAG® da popular plataforma MQB. Este software programa chaves de metal para numerosos modelos Audi®, Seat®, Škoda® e Volkswagen®. O software evita o pedido de código pin durante o procedimento e programa simultaneamente rádio controlo e transponder. São necessários o Smart Aerial e uma chave que funciona para efectuar a programação.

## New Key Programming Software Chrysler® 2019 ADS2291 - Code D753941AD

**United Kingdom:** Advanced Diagnostics is pleased to announce the release of the ADS2291 key programming software for Chrysler®, programming proximity keys for certain Dodge® and Maserati® models. All keys and remotes will be erased before programming new ones. The software bypasses the security pincode and programs the remote and the transponder at the same time. The use of the additional ADC2011 or ADC2012 cable is necessary.

**Italy:** Advanced Diagnostics ha sviluppato il nuovo software ADS2291 per la programmazione di chiavi per i veicoli Chrysler®, che consente di programmare chiavi di prossimità per alcuni modelli Dodge® e Maserati®. Tutte le chiavi e i radiocomandi registrati in centralina saranno cancellati prima della programmazione. Il software bypassa la richiesta di codice pin durante la procedura e programma contemporaneamente radiocomando e transponder. È richiesto l'utilizzo del cavo ADC2011 o ADC2012.

**Germany:** Advanced Diagnostics hat die neue Software ADS2291 entwickelt, die der Programmierung von Keyless-Go-Schlüsseln für Chrysler® (Dodge® und Maserati®) Fahrzeugmodellen gewidmet ist. Alle Schlüssel und Fernbedienungen werden vor dem Programmieren gelöscht. Die Software umgeht die Abfrage des Pin-Codes während des Verfahrens und programmiert die Funkfernbedienung und den Transponder gleichzeitig. Sie brauchen das Kabel ADC2011 oder ADC2012.

**France:** Advanced Diagnostics a développé le nouveau logiciel ADS2291 dédié à la programmation des clés Chrysler®, qui programme les clés de proximité pour certains modèles de Dodge® et Maserati®. Toutes les clés et les télécommandes sont effacées avant la programmation. En outre, le logiciel contourne la demande de code pin pendant la procédure et programme simultanément télécommande et transpondeur. Il faut utiliser un câble supplémentaire: le ADC2011 ou le ADC2012.

**Spain:** AD ha desarrollado el nuevo software ADS2291 para la programación de llaves en varios modelos Chrysler®, que permite programar las llaves de proximidad para algunos modelos Dodge® y Maserati®. Todas las llaves y los mandos se borran antes de ser programadas. El software deriva la solicitud del código pin durante el procedimiento y programa al mismo tiempo el mando a distancia y el transponder. Se requiere el uso del cable ADC2011 o del cable ADC2012.

**Portugal:** A Advanced Diagnostics desenvolveu o novo software ADS2291 dedicado à programação de chaves para Chrysler®, que programa chaves de proximidade para alguns modelos Dodge® e Maserati®. Todas as chaves e os rádio controles são apagados antes da programação. O software evita o pedido de código pin durante o procedimento e programa simultaneamente rádio controle e transponder. É necessário usar o cabo ADC2011 ou o cabo ADC2012.

## Key Programming Software Update Ford® 2019 ADS2269 - Code D753712AD

**United Kingdom** Advanced Diagnostics is pleased to announce the update of the ADS2269 key programming software for Ford®. The software is the first solution worldwide to program both bladed and proximity keys even when the alarm is active and in the situation of lost keys.

The software includes also an add key function. Transponder and remote are programmed at the same time for a streamlined procedure. No additional cables or software are required, but the Smart Pro must be connected to the internet. The procedure requires 2 tokens: one for server access/authentication and one for key programming.

**Germany** Advanced Diagnostics hat ein Update für die Software ADS2269 für Ford® entwickelt. Die Software ist weltweit die einzige Lösung, mit der Metall- und Keyless-Go-Schlüssel programmiert werden können, selbst wenn der Alarm aktiviert oder der Original Schlüssel nicht mehr vorhanden ist.

Die Software enthält auch die Funktion „Schlüssel hinzufügen“. Transponder und Fernbedienung werden zur gleichen Zeit programmiert, um einen glatten Ablauf zu gewährleisten. Keine zusätzlichen Kabel oder Software ist notwendig. Allerdings muss die Smart Pro mit dem Internet verbunden sein. Für den Vorgang sind zwei Token nötig: einer für den Serverzugang/die Authentifizierung und einer für die Schlüsselprogrammierung.

**Spain** Advanced Diagnostics ha desarrollado la actualización del software de programación de llaves para Ford® ADS2269. Este software es la primera solución en todo el mundo para programar tanto espadines como llaves de proximidad incluso cuando la alarma está activada o en caso de pérdida de llave.

El software incluye también una función para añadir una llave. El transponder y el mando se programan al mismo tiempo mediante un proceso simplificado. No es necesario utilizar cables o programas adicionales, pero la Smart Pro debe estar conectada a internet. El procedimiento necesita 2 tokens: uno para el acceso y autenticación en el servidor y otro para la programación de la llave.

**Italy** Advanced Diagnostics ha sviluppato il nuovo aggiornamento software ADS2269 per la programmazione di chiavi per Ford®: la prima soluzione al mondo in grado di programmare chiavi con canna metallica e di prossimità anche in caso di allarme attivo e in situazioni di perdita totale della chiave.

Il software prevede anche la possibilità di aggiungere nuove chiavi alle esistenti. Transponder e radiocomando sono programmati contemporaneamente per una procedura semplice e veloce. Non è richiesto l'utilizzo di ulteriori cavi o software, ma è necessario che Smart Pro sia connesso ad internet. Sono richiesti inoltre due token: uno per l'accesso al server/autenticazione e uno per la programmazione della chiave.

**France** Advanced Diagnostics a développé la mise à jour du logiciel de programmation de clés ADS2269 pour Ford®. Le logiciel est la première solution au monde pour programmer à la fois les clés avec insert et les clés de proximité même lorsque l'alarme est active et en cas de perte de clé.

Le logiciel comprend également une fonction d'ajout de clé. Le transpondeur et la télécommande sont programmés en même temps pour une procédure simplifiée. Aucun câble ou logiciel supplémentaire n'est requis mais le Smart Pro doit être connecté à Internet. La procédure nécessite 2 jetons (tokens) : un pour l'accès / authentification du serveur et un pour la programmation par clé.

**Portugal** A Advanced Diagnostics desenvolveu a nova atualização de software ADS2269 para a programação de chaves Ford®. É a primeira solução do mundo para programar chaves de metal e de proximidade, mesmo em caso de alarme ativo e em situações de perda total da chave. O software também oferece a capacidade de adicionar novas chaves às já existentes.

Transponders e rádio controlos são programados simultaneamente para um procedimento simples e rápido. Não são necessários cabos ou software adicionais, mas o Smart Pro deve estar conectado à Internet. Também são necessários dois tokens: um para acesso / autenticação do servidor e outro para programação de chaves.

## Silca Key Programs PRO

## SILCA KEY PROGRAMS PRO

### **VERSION 1 OF THE SILCA KEY PROGRAMS PRO**

For technical reasons, the SKP program has been revised and now has a new database engine called Microsoft SQL Server, which improves compatibility with recent Windows® Operating Systems.

**The name of the new program is Silca Key Programs Pro.**

As a result of this revision, **only the SKP PRO program will be updated with new functions and lock systems**, while SKP will no longer be refreshed or updated.

Customers who subscribed in 2019 will be provided with the SKP PRO program on DVD.

SKP and SKP PRO programs can be installed on the same PC, because each one has its own specific installation. The user can therefore access both programs during the transition period from SKP to the new SKP PRO.

**Once you have installed SKP PRO you will be able to:**

- Import all user data from the SKP program installed on the same PC.
- Import a backup file (.bkp) for SKP user data, as long as it is generated by a version of SKP equal to or later than 20.1.0.54

When you are sure that SKP PRO has imported all the SKP user data and is working properly, Silca suggests uninstalling SKP to avoid confusing the two programs.

### **PRIMA VERSIONE DI SILCA KEY PROGRAMS PRO**

Per motivi tecnici, il programma SKP ha subito una revisione ed ha un nuovo motore database, denominato Microsoft SQL Server, più compatibile con i recenti sistemi Operativi Windows®.

**Il nuovo programma si chiama Silca Key Programs Pro.**

A seguito di questa revisione, **solo il programma SKP PRO sarà aggiornato con nuove funzioni e sistemi serrature**, mentre il programma SKP non subirà alcuna miglioria o aggiornamento dati in futuro. Tutti i clienti che hanno sottoscritto l'abbonamento 2019 riceveranno il programma SKP PRO in DVD.

SKP e SKP PRO possono coesistere nello stesso PC perché sono 2 installazioni distinte. Nella fase di passaggio da SKP al nuovo SKP PRO l'utente potrà utilizzare entrambi i programmi.

**Una volta installato SKP PRO, sarà possibile:**

- Importare tutti i dati utente dal programma SKP installato nello stesso PC.
- Importare un file di backup (.bkp) dei dati utente di SKP purché generato da una versione di SKP uguale o superiore alla 20.1.0.54

Una volta verificato che SKP PRO abbia importato tutti i dati utente di SKP e funzioni correttamente, Silca suggerisce di disinstallare SKP al fine di non creare confusione nell'utilizzo dei due programmi.

> More info on all Silca websites

## ERSTE VERSION DES SILCA KEY PROGRAMS PRO

Aus technischen Gründen wurde das Programm SKP überarbeitet und hat einen neuen Database Engine, den Microsoft SQL Server, der mit den neusten Betriebssystemen von Windows® besser kompatibel ist. Der Name des neuen Programms ist Silca Key Programs Pro.

Infolge dieser Überarbeitung wird es **ausschließlich Updates mit neuen Funktionen und Verschlusssystemen für das Programm SKP PRO geben**, während für das Programm SKP zukünftig keinerlei Verbesserung oder Datenupdate bereitgestellt wird. Alle Kunden, die das Abonnement 2019 erworben haben, erhalten das Programm SKP PRO auf DVD.

Die Programme SKP und SKP PRO können nebeneinander auf dem gleichen PC vorhanden sein, da es sich um 2 verschiedene Installationen handelt. In der Übergangsphase vom SKP zum neuen SKP PRO kann der Nutzer daher beide Programme verwenden.

**Nach der Installation von SKP PRO ist Folgendes möglich:**

- Alle Nutzerdaten des auf dem gleichen Computer installierten Programms SKP importieren.
- Eine Backup-Datei (.bcp) der Nutzerdaten von SKP importieren, sofern diese von einer SKP-Version ab 20.1.0.54 oder höher generiert wurde.

Silca empfiehlt die Deinstallation von SKP, nachdem überprüft wurde, dass SKP PRO alle Nutzerdaten von SKP importiert hat und einwandfrei funktioniert, damit keine Verwirrung bei der Nutzung beider Programme entsteht.

## PRIMERA VERSIÓN DEL SILCA KEY PROGRAMS PRO

Por motivos técnicos, el programa SKP ha sido sometido a revisión y presenta un nuevo motor database, denominado Microsoft SQL Server, más compatible con los sistemas recientes operativos de Windows®.

**El nuevo programa se llama Silca Key Programs Pro.**

A consecuencia de esta revisión, **solamente el programa SKP PRO se actualizará con nuevas funciones y sistemas de cerraduras**, pero el programa SKP no experimentará mejoras o actualizaciones de datos en el futuro. Todos los clientes que hayan efectuado la suscripción para 2019 recibirán el programa SKP PRO en DVD.

SKP y SKP PRO pueden coexistir en el mismo PC porque son 2 instalaciones diferentes. Por consiguiente, en la fase de paso de SKP al nuevo SKP PRO, el usuario puede utilizar ambos programas.

**Después de la instalación de SKP PRO, se podrá:**

- Importar todos los datos del usuario del programa SKP, instalados en el mismo PC.
- Importar un archivo de copia (.bcp) de los datos del usuario de SKP, siempre y cuando haya sido generado a partir de una versión de SKP igual o superior a la 20.1.0.54

Después de haber comprobado que SKP PRO haya importado todos los datos del usuario de SKP y que funcione correctamente, Silca sugiere desinstalar SKP para no crear confusión a la hora de usar los dos programas.

## PREMIERE VERSION DE SILCA KEY PROGRAMS PRO

Pour des raisons techniques, le programme SKP a subi une **révision** et a désormais un nouveau moteur data base appelé Microsoft SQL Server, plus compatible avec les récents systèmes d'exploitation Windows®. **Ce nouveau programme s'appelle Silca Key Programs Pro.**

Suite à cette révision, **seul le programme SKP PRO sera mis à jour avec de nouvelles fonctions et systèmes serrures**, alors que le programme SKP ne subira lui aucune amélioration ou mise à jour de données à l'avenir. Tous les clients qui ont fait l'abonnement 2019 recevront le programme SKP PRO sur DVD.

Les programmes SKP et SKP PRO peuvent coexister sur un même PC, parce qu'il s'agit de 2 installations distinctes. Donc dans la phase de passage de SKP au nouveau SKP PRO, l'utilisateur pourra exploiter les deux programmes.

**Une fois SKP PRO installé, il sera possible de:**

- Importer toutes les données utilisateur du programme SKP installé sur le PC en question.
- Importer un fichier de backup (.bcp) des données utilisateur SKP à condition qu'il ait été généré par une version SKP égale ou postérieure à la version 20.1.0.54

Après avoir vérifié que SKP PRO a importé toutes les données utilisateur SKP et que tout fonctionne correctement, Silca conseille de désinstaller SKP afin de ne pas créer de confusions dans l'exploitation des deux programmes.

## PRIMEIRA VERSÃO DO SILCA KEY PROGRAMS PRO

Por razões técnicas, o programa SKP sofreu uma revisão e tem um novo motor banco de dados, chamado Microsoft SQL Server, mais compatível com os recentes sistemas Operativos Windows®. **O novo programa chama-se Silca Key Programs Pro.**

Como consequência desta revisão, **somente o programa SKP PRO será actualizado com novas funções e sistemas fechadura**, enquanto o programa SKP não terá nenhum melhoramento ou actualização de dados em futuro. Todos os clientes que têm a assinatura 2019 receberão o programa SKP PRO em DVD.

Os programas SKP e SKP PRO podem coexistir no mesmo PC pois são 2 instalações diferentes. Portanto, na fase de passagem de SKP para o novo SKP PRO o usuário pode utilizar ambos os programas.

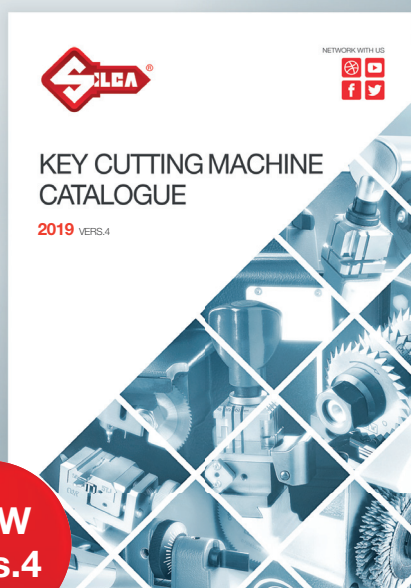

**Uma vez instalado SKP PRO, será possível:**

- Importar todos os dados do usuário do programa SKP instalado no mesmo PC.
- Importar um ficheiro de backup (.bcp) dos dados usuário de SKP desde que gerado por uma versão de SKP igual ou superior à 20.1.0.54

Uma vez verificado que SKP PRO tem importado todos os dados usuário de SKP e que funciona correctamente, a Silca sugere de desinstalar SKP para não criar confusão na utilização dos dois programas.
